

## Easy Pumpkin Cake

### Ingredients:

1 box yellow batter or spice cake mix (yellow batter will make a sweeter cake)  
1 can (15 oz) of pumpkin (NOT pumpkin pie mix)  
cooking spray or cupcake papers  
cream cheese frosting or any other flavor you like

### Directions:

- Pre-heat oven to 350 degrees F.
- In a large bowl combine the cake mix and the can of pumpkin using an electric hand mixer.
- Mix on a medium speed for about 2 minutes or until well combined. If mixing by hand you will need to beat about 300 times or when you can no longer see dry pieces of cake mix.
- Using cooking spray, spray the bottom of the cake pan, mini muffin tins or cupcake tins OR you can use mini or regular cupcake papers in tins.
- For a full size cake, bake for 20-25 until an inserted toothpick in the center of the cake comes out clean.
- For regular size cupcake, bake for 20 minutes until an inserted toothpick in the largest cupcake comes out clean. Will make 24 regular size cupcakes.
- For mini cupcakes, bake for 15 minutes until an inserted toothpick in the largest mini cupcake comes out clean. Will make 60 mini cupcakes.
- Let cool in trays or remove to cooling racks before frosting.
- Make sure cake(s) have cooled completely before frosting. Frost with cream cheese frosting or any other frosting you like.
